

# ES AMERICAN SCHOOL ECO-CODE

ES American School is committed to fostering environmental mindfulness and responsibility within our student body and broader community. We strive to lead by example and create positive environmental change through our daily practices and educational initiatives.

1. **Respect and Protect:** Treat our school environment, local stream, green spaces, and all living beings with care and respect.
2. **Conserve Water:** Continue using water responsibly and avoid wasting it at school and at home.
3. **Refill and Reuse:** Bring reusable water bottles and reduce the use of single-use plastic bottles.
4. **Reduce Food and Packaging Waste:** Make responsible choices that help reduce food waste, packaging waste, and unnecessary paper use.
5. **Reuse Before Replacing:** Give materials, clothes, books, and school supplies a second life whenever possible.
6. **Recycle Correctly:** Use the correct bins and help improve waste separation across the school.
7. **Sustainable Choices:** Make daily choices that protect water, reduce pollution, avoid unnecessary waste, and support a circular economy.
8. **Green Spaces:** Care for our school's gardens, outdoor areas, and natural spaces, and support projects that leave a positive legacy.
9. **Community Collaboration:** Work with students, staff, families, the Masia, the Academy, and local organizations to take meaningful environmental action.
10. **Learn and Share:** Educate ourselves and others about water conservation, food and waste reduction, recycling, reuse, and circular economy.
11. **Local Action, Global Impact:** Take action in our school community to protect the environment and contribute to a more sustainable future.
